PRODUCT INFORMATION AND APPLICATION USE

Niron Instabranche Sidewall Fusion Fittings are designed to be joined by means of heat element socket fusion in accordance with ASTM F3722, Procedure 3. Fittings are manufactured with imbedded sockets on each side which are of a tapered interference fit. The dimensions of the fittings and sockets are in accordance with the requirements of ASTM F2389. The fittings are designed with sufficient thickness to exceed the pressure ratings of the thickest Niron commercially available pipe. Fittings are unitary and injection molded and are solid grey in color.
